Look, Reddit and Quora have been blowing up in organic results. I think that's dumb, I liked the older websites... Or at the very least, other forums. Now Reddit has become dogwater.

Oh well. If you can't beat them, join 'em, right? That's why you're here, that's why I'm here. I don't have a profit motive from this forum, it's for funzies, but if I could be bigger than Facebook for just 1 day, that'd be TITS!
